

### ACER palmatum Beni Kawa

☀️🌳 9-12'h 5-7'w 5-6'p

(Japanese Maple) Winter shoot color is a spectacular deep, bright salmon red. Focal point in the landscape. Fall color golden yellow contrasts red shoots. The name means "red bark".

### ACER palmatum Pixie

☀️🌳 3-6'h 4-5'p

(Japanese Maple) Dwarf red, deeply cut lobes, leaves emerge bright pink red, becoming a deep red in summer, turning scarlet fire red in fall. Round habit, good container or rockery plant.

### ACER palmatum Beni Otaka

☀️🌳 12-24'h x 7-10' w 3'p

(Japanese Maple) Purple-red strap like leaves, distinctive layered bamboo like appearance, vivid crimson in fall. Name means "big red bamboo".

### ACER palmatum Red Pygmy

☀️🌳 6-12'h x 6-12'w 4-5'p

(Japanese Maple) Excellent red cultivar, superior to 'Atrolineare'. Red or bright red-maroon lacy leaves. Purple fall color.

### ACER palmatum Beni Shichihenge

☀️🌳 6-12'h 5-6'p

(Japanese Maple) Bluish green with strong white margins. White is blushed with pink orange, becoming orange brown later in summer. Upright habit, slow growing. Good companion, can be containered.

### ACER palmatum Shaina

☀️🌳 6-12'h x 4-10'w 3'p

(Japanese Maple) Compact upright, round leaved palmatum concentrates dark maroon-red leaves in dense tufts. Bright red in spring, dark purple red for summer, and bright crimson in fall.

### ACER palmatum Katsura

☀️🌳 12-18'h 4-5'p

(Japanese Maple) Striking spring growth, leaves are pale yellow orange, margins are brighter orange. Summer color show leaves turning into a light to yellow green. Fall colors are bright yellow and orange. Upright habit, good contained or bonsai.

### ACER palmatum Suminagashi

🌳 12-18'h x 7-11'w

(Japanese Maple) Deeply dissected leaves emerge bright purple red. Early summer they darken to almost black red, then by mid summer to fall gradually changing to deep green with fall color of crimson.

### ACER palmatum Oregon Sunset

☀️🌳 12-18'h 3'p

(Japanese Maple) Red foliage and small neat, compact, rounded bush habits. Good for the small landscape and for containers. Outstanding spring and fall color. Leaves emerge red, to plum red and in fall a vivid sunset red for color. Good companion.

### ACER palmatum Tsuma gaki

☀️🌳 12'h x 12'w 4'p

(Tsuma gaki or Red Nail Japanese Maple) In spring, delicately drooping chartreuse leaves are boldly tipped with red. By summer they transform into an eye catching sight with wide, deep red margins, and light cream centers. Small rounded habit.

### ACER palmatum Oridonishiki

🌳 12-18'h x 7-12'w 5-6'p

(Japanese Maple) One of the best palmatus. Name means "the rich-colored fabric of the master". New spring growth is bright pink turning to a rich, deep, shiny green

### ACER palmatum Ukigumo

🌳 6-12'h 4-5'p

(Japanese Maple) The name means 'floating clouds'. Pastel tones blend in subtle combinations. Light green with faint shading of pink dotted with white. Slow grower, upright habits, good container plant.

### **ACER palmatum dissectum** **Orangeola**

☀️🌳 6-9'h x 6-9'w 2-2.5'p

(Japanese Maple) An outstanding cascading variety has bright orange-red new spring foliage, keeping an orange flush as summer color moves to a rich red green. Second summer flush of growth creates a two-toned effect becoming fiery orange red in fall.

### **ACER palmatum dissectum** **Waterfall**

☀️🌳 6-12'h x 6-12'w 3'p

(Japanese Maple) Dissected leaves, cascading form, and stands full sun well. Fall colors are brilliant gold tones suffused with crimson blends.

### **AESCULUS carnea Briotii**

☀️🌳 18-35' h 18-35' w 4'p SPRING

(Ruby Red Horse Chestnut) Round growth habit. Spectacular red flowers. Dark green leaves turn yellow in the fall.

### **AMELANCHIER leaves** **Spring Flurry**

☀️🌳 20-25'h x 12'w 6'p SPRING

(Serviceberry) White spring flowers. Black fruit. Orange fall color.

### **BETULA Royal Frost**

☀️🌳 30-40' h 15-20' w 6'p

(Royal Frost Birch) Rich burgundy foliage from spring through summer. Yellow-orange to red fall color. Attractive cinnamon to white bark.

### **CARAGANA arborescens** **Pendula**

☀️🌳 6-8' h 3-6' w 4'p SPRING

(Weeping Pea shrub Std.) Graceful small accent tree with weeping branches. Very hardy and fast growing. Grafted on either 3' or 4' stem. Yellow flowers in spring.

### **CERCIDIPHYLLUM** **japonicum Morika Weeping**

☀️🌳 12' h 10' w 5'p

(Morika Weeping Katsura tree) A rare, weeping form differing from 'Pendula' in having slightly larger leaves which have a distinctive puckered habit. Grown as a tree form with the branches descending.

### **CERCIDIPHYLLUM** **japonicum pendula**

☀️🌳 12'h x 10'w 5'p

(Weeping Katsura) Smaller leaves than Morika. Leaves have caramel scent in fall. Amber fall foliage.

### **CERCIDIPHYLLUM** **japonicum Red Fox**

☀️🌳 35'h x 25'w 5'p

(Katsura) Leaves emerge a burgundy color changing to blue-green. Amber fall foliage with caramel scent.

### **CERCIS canadensis** **Lavender Twist**

☀️🌳 6-8' h 5-8' w 6'p SPRING

(Lavender Twist Weeping Redbud) Unique new Redbud with a profusion of lavender-pink flowers in spring preceding dark green, heart-shaped foliage. Distinctive zigzagging trunk.

### **CORNUS kousa Milky Way**

☀️🌳 20-30'h 20-30'w 3'p SUMMER

(Milky Way Dogwood) This plant is extremely floriferous and sets a very heavy crop of pinkish-red fruit. Sometimes flowers so profusely, that the foliage is obscured by the creamy white bracts.

### **CORYLUS avellana Red** **Majestic**

☀️🌳 10-12'h x 10-12'w 4'p

(Red Harry Lauder's Walking Stick) You love Harry Lauder's Walking Stick, now imagine one with deep red leaves! You won't be able to resist anymore.

### **CORYLUS avellanda Contorta**

☀️ 6'h 6'w 4'p SPRING

(Corkscrew Hazel Std) Also known as Harry Lauder's Walking Stick. Top grafted onto a 3' stem. Yellow catkins in early spring. Curiously twisted, gnarled branches- extremely attractive silhouette against the winter snow.

### **COTINUS coggyria Ancot Std.**

☀️ 6-8'w 6-8'h 30"p SUMMER

(Golden Spirit Smoke Bush Std.) Unique spring foliage ranges from lime green to brilliant gold. Excellent fall color in shades of coral, orange and red.

### **COTINUS coggyria Ancot Std.**

☀️ 6-8'w 6-8'h 4'p SUMMER

(Golden Spirit Smoke Bush Std.) Unique spring foliage ranges from lime green to brilliant gold. Excellent fall color in shades of coral, orange and red.

### **COTINUS coggyria Royal Purple**

☀️ 15' h 12' w 4-5'p SUMMER

(Royal Purple Smoke Tree) Dusty pink summer flowers. Purple leaves all summer. Orange/red fall foliage.

### **COTINUS coggyria Royal Purple**

☀️ 15' h 12' w 5-6'bb SUMMER

(Royal Purple Smoke Tree) Dusty pink summer flowers. Purple leaves all summer. Orange/red fall foliage.

### **COTINUS coggyria Velvet Cloak**

☀️ 10'h x 10'w 30"p SUMMER

(Velvet Cloak Smokebush) Upright spreading shrub with dark purple leaves throughout summer. Fall color can be spectacular reddish purple. Midsummer flower display is very showy.

### **COTINUS coggyria Young Lady**

☀️ 6-8'h x 6-8'w 30"p SUMMER

(Young Lady Smoke Bush) This green-leaved variety seems to be perpetually in bloom. Starts to flower at a very early age. Excellent orange-red fall color.

### **COTINUS coggyria Young Lady Std.**

☀️ 6-8'h x 6-8'w 4'p SUMMER

(Young Lady Smoke Bush) This green-leaved variety seems to be perpetually in bloom. Starts to flower at a very early age. Excellent orange-red fall color.

### **EUONYMUS turkestanica nana Turkestan**

☀️ 6'h 5'w 4'p

(Turkestan Euonymus Std.) Excellent top-grafted plant with slightly weeping branches of dark green leaves. Brilliant scarlet red fall color and showy fruit.

### **FAGUS sylvatica Purpurea Pendula**

☀️ 8' h 10' w 3'bb

(Purple Weeping beech) This strictly weeping cultivar is a real beauty. Its flexible branches can be trained to grow anyway you like, or just let its weeping habit arch and sprawl to create a large dark purple-black mound.

### **FAGUS sylvatica Purpurea Pendula**

☀️ 8' h 10' w 4'p

(Purple Weeping beech) This strictly weeping cultivar is a real beauty. Its flexible branches can be trained to grow anyway you like, or just let its weeping habit arch and sprawl to create a large dark purple-black mound.

### **FAGUS sylvatica Rohan Obelisk**

☀️ 30' h 10' w 7'bb

(Rohan Obelisk Beech) Dark purple, narrow, columnar habit, Vigorous growth but with a more refined, compact habit compared with 'Dawyck Purple'

## 2009

### **FAGUS sylvatica Roseo-marginata**

☀️ 30' h 20' w 4-5'bb

(Tricolor Beech) Striking green leaves marked with white and edged pink. Leaf color most intense in spring.

### **GYMNOCLADUS dioicus (Kentucky Coffee Tree)**

☀️ 50'h x 35'w 5'p

(Kentucky Coffee Tree) Huge fans of doubly compound green leaves emerge in spring to cast filtered shade. Drought and air pollution tolerant.

### **HIBISCUS syriacus Hamabo Std.**

☀️ 3-7' h 3-6' w 4'p SUMMER

(Hamabo Rose of Sharon Std.) Showy single pale pink flowers with boldly feathered red centers. Grafted on a 2-4' stem.

### **HIBISCUS syriacus Lucy Std.**

☀️ 3-7'h x 3-6'w 4'p SUMMER

(Lucy Rose of Sharon) Prominently displayed atop a 2' to 4' stem, a continuous show of large double red flowers bloom from late summer into fall.

### **HIBISCUS syriacus Marina (Blue Satin) Std.**

☀️ 7-10'h x 5-8'w 4'p SUMMER

(Blue Satin Rose of Sharon) Large, single, rich royal blue flowers on a strong growing, uniform plant with rich color.

### **HIBISCUS syriacus Woodbridge Std.**

☀️ 3-7' h 3-6' w 4'p SUMMER

(Woodbridge Rose of Sharon Std.) Large, single pink flowers with vivid red centers and ruffled petals bloom in late summer on this exotic looking shrub, grafted atop a 2-4' stem.

### **HYDRANGEA paniculata Pink Diamond**

☀️ 6-9' h 3-6' w 4'p SUMMER

(Pink Diamond Hydrangea) Rounded growth habit. Large, solid panicles bloom freely in July and August. Flowers open a creamy-white and transform into a deep pink-burgundy color

### **LARIX laricina Newport Beauty Std.**

☀️ 6'h x 6'w 4'p

(Newport Beauty Larch Std.) A rare deciduous shrub with small grayish-green needles that turn yellow in autumn. Forms a round ball that grows approximately 40cm by 40cm in ten years. Grafted on a 4' hardy stem.

### **MALUS Coral Burst Std.**

☀️ 5-7' h 2-3' w 6.5'p SPRING

(Coral burst Crabapple std.) Coral pink buds open to double, rose colored flowers on a well formed compact head. This dwarf crab apple std. Is a real beauty.

### **MALUS Golden Raindrops**

☀️ 18'h x 15'w 7'p

(Golden Raindrops Crabapple) Upright, vase shaped habit. White flowers in spring followed with golden yellow fruit. Glossy green leaves are deeply cut and provide and overall fine texture. Reported to be Japanese Beetle resistant.

### **MALUS Louisa**

☀️ 15'h x 12'w 5.5'bb SPRING

(Louisa Crabapple) Weeping habit, pink flowers, and yellow fruit. Excellent green foliage, good disease resistance.

### **MALUS Red Jade**

☀️ 12' h 10' w 5'p SPRING

(Red Jade Crabapple) White blossoms cover this weeping tree in the spring. Foliage is glossy green. Yields an outstanding display of red apples in the fall.

TEST OF TIME

PLANTS THAT  
MAKE YOUR  
GARDEN SHINE

### PRUNUS serrulata Snow Fountain

☀️ 6-12'h 6-12'w 5'p SPRING

(Snow Fountain Cherry) Trained into a serpentine shape. Semi-weeping with white flowers on bare stems. Fall foliage is a blend of gold and orange hues.

### PRUNUS subhirtella Pendula Double

☀️ 8-12'h 8-12'w 6'p SPRING

(Weeping Pink Cherry) Fast growing, weeping form. Pink double flowers. Orange to rust fall foliage. Among the most cold, heat and stress tolerant of the ornamental cherries.

### RHUS typhina Baittiger (Tiger's Eye)

☀️🌿 6'h 6'w 1.5'p

(Tiger Eye's Cutleaf Stag horn Sumac) Beautiful new golden-leaved cutleaf stag horn sumac. New leaves are at first chartreuse, then change to yellow, carried atop fuzzy stems of rose-pink. Vivid yellow, orange and scarlet fall color.

### ROBINIA pseudoacacia Lace Lady (Twisty Baby)

☀️🌿 6-10'h 9'w 5'p

(Twisty Baby Dwarf Black Locust Std) Novelty Black Locust standard with lacy foliage and twisted, contorted shoots. Artistic form adds summer and winter interest to the garden.

### SALIX caprea Pendula Std.

☀️🌿 5-6' h 3-6' w 5'p SPRING

(Weeping Pussy Willow Standard) A small attractive weeping tree with silvery, woolly catkins. Top-grafted at a 4-5' level.

### SALIX integra Hakuro Nishiki Std.

☀️ 7-10' h 3-6' w 5'p

(Hakuro Nishiki Willow std.) Translucent, white leaves adorn bright pink branchlets. Leaf blades are strongly mottled with bright green and white variegation. Pinkish new growth. Grafted on a 4' stem.

### SYRINGA juliana Hers

☀️ 4-6' h 3-6' w 5'p SPRING

(Weeping Lilac Standard) Weeping growth habit. Small, delicately leaved, weeping ornamental variety. Deliciously fragrant, pendulous light mauve flowers. Sporadic summer bloom.

### SYRINGA reticulata Golden Eclipse

☀️🌿 13-23' h 8-13' w 6'p SPRING

(Golden Eclipse Tree Lilac) Excellent resistance to sunburn. Creamy white flowers in late spring. The edge of the leaf gradually turns to bright gold, and with the dark green "shadow" in the center of the leaf, gives the illusion of an eclipse.

### SYRINGA reticulata Ivory Silk

☀️🌿 13-23' h 8-13' w 8'p SPRING

(Ivory Silk Tree Lilac) Compact, dense growth habit. Medium sized tree. Creamy-white flowers in late spring. Excellent specimen

### SYRINGA vulgaris Marie Frances

☀️🌿 4-7' h 2-3' w 5'p SPRING

(Marie Frances Lilac Standard) Oval growth habit. Soft, clear pink, fragrant flowers adorn this plant. This new semi-dwarf variety is grafted on a 3-4' stem.

### SYRINGA x. Bailbelle Std.

☀️🌿 5-7'h x 5-7'w 5'p SPRING

(Tinkerbelle Lilac Std.) Highly ornamental shrub, top grafted on a 3' stem, with trusses of burgundy colored buds which open to lavender-pink blooms with spicy fragrance.

### VIBURNUM x. caricephalum

☀️🌿 6-8' h 3-6' w 5'p SPRING

(Fragrant Snowball Viburnum Standard) Upright, rounded growth habit. Deciduous standard, branches tipped with waxy, white "snowball" clusters in spring. Intense, spicy fragrance.
