# DISTINCTIVE GARDENS HOT PEPPERS 2009

## Ancho Gigantea

Dark green heart-shaped 3" - 4" almost black fruit. Called "Poblano" when fresh and green and "Ancho" when dried. The standard Mexican variety for sauces and stuffing. Not real hot.

## Biker Billy

Extremely hot jalapeno pepper. Fruit is 2" long and great for salsas and other dishes.

## Bulgarian Carrot

Heirloom florescent orange fruit 1" x 3.5" long borne in large clusters. Very Hot!

## Charleston Hot

Yellow-green to golden 5" to 6" long fruit with a blunt nose. Foliage color is a yellow green and fruit is very hot.

## El Jefe

Hybrid, large smooth jalapeno that is high yielding. Fruit is hot and has less cracks ion the skin.

## Elephant's Trunk

East Indian with deep red curved pods 1" x 10" long. A very productive producer and hot.

## Espanola

A narrow pointed chile. Faster than all other chilies to turn red and a great plant for northern growing. Very Hot!

## Fish

An heirloom with green and white foliage. Fruit is 2-3" long, ripens cream with green stripes to orange with brown stripes to all red. Very hot.

## Holy Mole'

2007 AAS winner has chocolate brown fruit that are 7-9" long and 1 1/2" in diameter. Fruit are mild.

## Inferno

Hybrid, very productive banana type, medium green to yellow fruit 8" x 1.5". Hot and great for salsa!

## Mucho Nacho

Hybrid, high yielding variety that produces 4" Jalapeno peppers that are hotter than standard Jalapeno's.

## Peru Yellow

Medium, thick walled, 4.5" x .75" fruit that turns yellow at maturity with intense heat.

## Prairie Fire

Yellow-green 1/2" x 1" fruit above foliage changing from chartreuse to cream to yellow to orange and finally red. Great for container gardens. Hot!

## Pretty Purple

All purple leaves, stems, flowers, and unripe peppers. Fruit ripens to red against purple foliage of plant. Very hot!!

## Serrano

2" long fruit that are very hot. Good in chili, guacamole, pickled, or salsa.

## Squash Red or Yellow

Patty pan shaped fruit up to 2" across and very hot. Great for pickling or dried.

# DISTINCTIVE GARDENS TOMATOES

## 2009

PLANTS THAT  
STAND THE  
TEST OF TIME

PLANTS THAT  
MAKE YOUR  
GARDEN SHINE

### Abraham Lincoln

A mild tasting, heavy-yielder that has become a standard by which tomatoes are judged. Fruits are bright red, globe-shaped, averaging 8 oz. in weight. (Indeterminate) 75 days

### Amana Orange

This heirloom features large, up to 5" in diameter beef steak type fruit. Fruit is mild in flavor and a distinct orange color. (Determinate) 90 days

### Bella Rosa

Very productive yields of large fruit of 10 to 12 oz. with great flavor. Plants are heat tolerant and resistant to spotted wilt virus. Fruit are bright red. (Determinate)

### Big Beef Hyb.

Delicious flavor tomato that is highly disease resistant. Smooth shaped fruit weighing 9 oz. - 1 lb. (Indeterminate) 65 days

### Black

A Russian import that is one of the best tasting 'black' tomatoes. Fruits are 2-3", smooth, juicy- textured and thin-skinned. Fruits are mahogany red-brown with purplish flesh. (Indeterminate) 85 days

### Black Truffle

A luscious new variety with a deep burgundy color with undertones of purplish-black with a rich flavor. Fruit is high in sugars and acid, creating a sweet, strong, complex flavor. (Indeterminate) 75 days

### Brandy Boy

The best slicer Burpee has bred in 50 years. Bred from variety 'Brandywine' but 4-5 times the yield and 10 days earlier. Flavor is very good. 78 days

### Bush Steak

Surprisingly compact 22" plants are loaded with large luscious tomatoes. Fruit is 8-12 oz. A great plant for a container. (Determinate) 65 days

### Cherokee Purple

An heirloom that produces a medium pink-purple fruit. Has great taste and fruit is 8-12oz. (Indeterminate) 80-90 days

### Dr. Wyche's Yellow

This is one of the best tasting yellow tomatoes to be found. It combines luscious sweetness with plenty of tangy tomato flavor. Fruit is golden-yellow, smooth-skinned and weighs 10 oz. to 1 lb. (Indeterminate) 80 days

### First Light Hyb.

Harvest this tomato when lower half of fruit is red but still has green shoulders. Excellent flavor with a nice crisp texture. Weighs 5 to 7 oz. (Indeterminate) 76 days

### Georgia Streak

Lovely bicolor fruit that is globe shaped and weighs 1 - 2 lbs. Flavor is sweet yet hearty. (Indeterminate) 90 days

### Giant Belgium

Fruit average 2 lbs. but have been known to grow to an enormous 5 lbs. Fruit are dark pink, with solid meat, and a delicious sweet flavor. (Indeterminate) 90 days

### Golden Jubilee

Mild flavor and low acidity make this one of the best varieties for tomato juice. Fruit are bright golden-orange, meaty flesh, thick wall and average 6 to 7 oz. (Indeterminate) 72 days
